

CHOOSE LEADERSHIP

2024-2025 PAEA Student Fellowships

SHPF

Student Health Policy Fellowship

During this 3-day virtual workshop, Fellows learn from national policy experts and advocate for PA education legislation. They take these skills back to their programs to implement a community-based policy project.

SEPTEMBER 9-11

FEF

Future Educator Fellowship

Kicking off at the PAEA Education Forum, this year-long virtual experience helps Fellows develop foundational and functional educator competencies and demonstrate their learning through modules, teach-backs, and scholarly presentations.

OCTOBER 8-10

BOTH

Participate in both opportunities

PAEA highly encourages motivated students to apply for both opportunities. The SHPF and FEF offer complementary skills that are invaluable for the development of a well-rounded leader in PA education.
